Impact of Ukraine conflict on supply chain

Q1: Do you yourself have facilities in Russia or Ukraine (production facilities, warehouse etc.)?

A1: No, we don't have any facilities there.

Q2: Do you buy machines, components or materials from these countries which are necessary to produce your products? If yes, are there any alternative sources?

A2: For X-ray tubes and Image intensifiers which we supply to you,
we don't buy any materials from these countries. When the situation is changed, we will inform you.

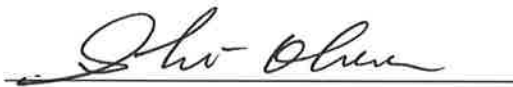

Q3: Do you use transportation routes through these countries?

A3: Most likely some flights, that usually fly over Russia might be rerouted.

Q4: Which potential impact do you see for your production, and what measures do you take to stabilize the supply chain?

A4: We don't see the impact for our production at the moment.

When we see the impact for our production in the future, we will inform you.

Mr. Shinji Ohama

General Manager
Sales Div.
Canon Electron Tubes & Devices Co., Ltd.
